

What to look for at the THRIFT STORE

FRAMES

Don't let the color put you off.
You can always paint them.
If there is artwork inside that you
don't like, take it out and just
use the frame.

FURNITURE

Look for good bones. If you're
not crazy about the finish or
upholstery, it's easy to update
with a new finish or fabric.

DISHES

Plates don't have to match!
Mix & match patterns & colors.
Run your finger around the
edges to be sure there aren't
chips or cracks.

BAKEWARE

Look for brand name pieces
and/or vintage pieces.

CLOTHES

T-shirts are a super inexpensive,
but potentially very cool find.
Find the quirky ones you love.
Brand name clothes are always
hiding in those racks, so be sure
to check the tags.

CAST IRON

Cast iron will last for decades.
Look for pans in good condition.
Google to find out how to clean
and season it properly
once you get it home.

HOME DECOR

You're looking for pieces that fit
your style, or that can easily be
changed a little to fit your style.
Lamps, for example, often need
only a new lampshade.
